Nothing in this section shall require a person or affiliate to register if the person or affiliate does not make sales to customers in the state of tangible personal

property or services, which if the sales occurred wholly within the state, would be taxable under title 67, chapter 6. sex, or national origin and shall provide beneficiaries of assistance under the programs established by law with forms of disbursement that are redeemable with these organizations that are awarded a contract. State and local governments may use any state, federal, local or other moneys available for these purposes.

(b) State and local governments shall allow contracts with religious organizations to provide goods and services provided through, or administered by, the departments of children's services, health, and human services and to accept forms of disbursement under any program established on the same basis as any other nongovernmental provider without impairing the religious character of these organizations, and without diminishing the religious freedom of beneficiaries of assistance funded under these programs. The programs shall be implemented consistent with the first amendment of the United States Constitution. State and local governments shall not discriminate against an organization that is, or applies to be, a contractor to provide assistance or that accepts forms of disbursement on the basis that the organization has a religious character.

State and local governments shall not require a religious organization to alter its form of internal governance or to remove religious art, icons, scripture or other symbols in order to be eligible to contract to provide assistance or to accept grants or other forms of disbursement funded under any program or public contract.

(d) If a person, who applies for or receives goods, services or disbursements, objects to the religious character of the organization or institution from which the person

receives, or would receive, assistance funded under any program, the state or local government shall provide the person, within a reasonable period of time after the date of the objection, with assistance from an alternative provider that is accessible to the person if an alternative provider is available and the value of which is not less than the value of assistance that the person would have received from the religious organization. (e) A religious organization's exemption provided under § 702 of the Civil Rights Act of 1964, codified in 42 USC § 2000e-1(a), regarding employment practices is not affected by its participation in, or receipt of, moneys from programs described in this section. Nothing in this section allows religious organizations to discriminate in employment practices on the basis of race, age, color, sex or national origin.

(f) Except as otherwise provided by law, a religious organization shall not discriminate against a person in regard to rendering assistance funded under any program described in this section on the basis of religion, a religious belief or refusal to participate in a religious practice, or on the basis of race, age, color, sex or national origin.

(g) Except as provided in subsection (h), any religious organization that contracts to provide goods, services or assistance funded under any program is subject to audit by the comptroller of the treasury, and is required to comply with the same rules and laws as other contractors to account in accordance with generally accepted auditing principles for the use of the moneys provided under the program.

(h) If a religious organization segregates public moneys provided under these programs into separate accounts, only the programs funded by financial assistance provided with these moneys are subject to audit by the comptroller of the treasury.

(i) Appeals from the decisions of the head of a state agency, board or commission may be made to the commissioner of finance and administration in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5.

(j) No moneys provided directly to institutions or organizations to provide services and administer programs under this section may be spent for sectarian worship, instruction or proselytization. This subsection (j) does not apply to the contracting for the services of chaplains by state and local governments.

(k) For the purposes of this section, "state and local governments" means state agencies, boards and commissions and political subdivisions of this state.

(l) No funds provided by any state or local government for goods and services to religious organizations shall supplant present funding of programs provided by such groups but shall be a supplement to the activities rendered by these groups.

(a) Prior to the commencement of an action in court concerning the controversy, any actual respondent who claims to be aggrieved in connection with a procurement authorized under title 12, chapter 3, may protest to the chief procurement officer. The protest shall be submitted in writing within seven (7) calendar days after such claimant knows or should have known of the facts giving rise to the protest. Any issues raised by the protesting party after the seven-day period shall not be considered as part of the protest. In the case of a pending award, a stay of award in accordance with subsection (e) may be requested.

(b) The signature of an attorney or protesting party on a request for consideration, protest, motion, or other document constitutes a certification by the signer that the signer has read such document, that to the best of the signer's knowledge, information, and belief formed after reasonable inquiry, it is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law, and that it is not interposed for any improper purpose, such as to harass, limit competition, or to cause unnecessary delay or needless increase in the cost of the procurement or of the litigation. If a request for consideration, protest, pleading, motion, or other document is signed in violation of this subsection (b) before or after appeal to the chief procurement officer and the protest committee, the chief procurement officer or protest committee, upon motion or upon its own initiative, may impose upon the person who signed it, a represented party, or both, an appropriate sanction, which may include an order to pay to the other party or parties, including the affected state agency, the amount of the reasonable expenses, including reasonable attorneys' fees incurred because of the filing of the protest, a petition for a stay of award, pleading, motion, or other paper.

(c) Neither a protest nor a stay of award shall proceed under this section unless the protesting party posts a protest bond. The protesting party shall post with the chief procurement officer, at the time of filing a notice of protest, a bond payable to the state in the amount of five percent (5%) of the lowest cost proposal evaluated or, if a protest is filed prior to the opening of cost proposals, the bond payable shall be five percent (5%) of the estimated maximum liability provided in the procurement document. The protest bond shall be in form and substance acceptable to the state and shall be immediately payable to the state conditioned upon a decision by the protest committee that:

(1) A request for consideration, protest, pleading, motion, or other document is signed, before or after appeal to the chief procurement officer or protest committee, in violation of subsection (b);

(2) The protest has been brought or pursued in bad faith; or

(3) The protest does not state on its face a valid basis for protest.

(d) The bond shall be payable to the state for any other reason approved by the protest committee. The state shall hold the protest bond for at least eleven (11) calendar days after the date of the final determination by the chief procurement officer. If the protesting party appeals the chief procurement officer's determination to the protest committee, the chief procurement officer shall hold the protest bond until instructed by the protest committee to either keep the bond or return it to the protesting party.

(1) At the time of filing notice of a protest of a procurement in which the lowest bid or lowest evaluated cost proposal is less than one million dollars (\$1,000,000), a minority business, woman-owned business, service-disabled veteran owned business, or small business protesting party may submit a written petition for exemption from the protest bond requirement of subsection (c). The

petition shall include clear evidence of a minority business, woman-owned business, service-disabled veteran owned business, or small business status. On the day of receipt, the petition shall be given to the chief procurement officer. The chief procurement officer has seven (7) calendar days in which to make a determination. If an exemption from the protest bond requirement is granted, the protest shall proceed as though the bond were posted. Should the chief procurement officer deny an exemption from the requirement, the protesting party shall post the protest bond with the chief procurement officer as required in subsection (c) within five (5) calendar days of the determination.

(2) For purposes of this subdivision (d)(1):

(A) "Minority" means a person who is a citizen or lawful permanent resident of the United States and who is:

(C) "Small business" means a business that is independently owned and operated, has total gross receipts of not more than ten million dollars (\$10,000,000) averaged over a three-year period, or employs no more than thirty (30) persons on a full-time basis;

(D) "Tennessee service-disabled veteran owned business" means a service-disabled veteran owned business that is a continuing, independent, for-profit business located in this state that performs a commercially useful function, and is at least fifty-one percent (51%) owned and controlled by one (1) or more service-disabled veterans. In the case of a business solely owned by one (1) service-disabled veteran and such person's spouse, is at least fifty percent (50%) owned and controlled by the service-disabled veteran or in the case of any publicly owned business, at least fifty-one percent (51%) of the stock of which is owned and controlled by one (1) or more service-disabled veterans and whose management and daily business operations are under the control of one (1) or more service-disabled veterans; and

(3) The chief procurement officer, in consultation with the head of the state agency, has the authority to resolve the protest. The chief procurement officer shall have no longer than sixty (60) calendar days from receipt of a protest to resolve the protest. The final determination of the chief procurement officer shall be given in writing and submitted to the protestor and the protest committee, and the comptroller of the treasury. If the chief procurement officer fails to resolve the protest within sixty (60) calendar days, the protesting party may request that the protest committee meet to consider the protest.

(4) If a protest is not resolved by mutual agreement within sixty (60) calendar days, the protesting party may request the matter be considered at a meeting with the protest committee. The request for consideration before the protest committee shall be made in writing within seven (7) calendar days from the date of the chief procurement officer's final determination or within seven (7) calendar days following the chief procurement officer's failure to resolve the protest within sixty (60) calendar days after receipt of the protest.

(e) Prior to the award of a contract, respondents who have protested may submit to the chief procurement officer a written petition for stay of award. Such stay shall become effective upon receipt by the state. The state shall not proceed further with the procurement process or with the award of the contract until the protest has been resolved in accordance with this section, unless the protest committee makes a written

determination that continuation of the procurement process or the award of the contract without delay is necessary to protect substantial interests of the state. It shall be the responsibility of the chief procurement officer, with the assistance of the procuring agency, to seek such a determination by the protest committee. The chief procurement officer shall provide the minutes of the protest proceedings to each committee member and to the comptroller of the treasury and shall post the final determination within fifteen (15) business days to the single public procurement web site.

(f) Nothing in this section shall be construed to require a contested case hearing as set forth in the Uniform Administrative Procedures Act, compiled in chapter 5 of this title. The protesting party must exhaust all administrative remedies provided in this section prior to the initiation of any judicial review of the protest.

(g) Should a protest be received by the state subsequent to a contract being completely executed pursuant to a procurement process, the Tennessee claims commission has exclusive jurisdiction to determine all monetary claims against the state, including, but not limited to, claims for the negligent deprivation of statutory rights pursuant to § 9-8-307(a)(1)(N).

(h) Protests appealed to the chancery court from the protest committee shall be by common law writ of certiorari. The scope of review in the proceedings shall be limited to the record made before the protest committee and shall involve only an inquiry into whether the protest committee exceeded its jurisdiction, followed an unlawful procedure, or acted illegally, fraudulently, or arbitrarily without material evidence to support its action.

(b) Any contract, change order, or contract modification under which a certificate is required shall contain a provision that the price to the state, including profit or fee, shall be adjusted to exclude any significant sums by which the state finds that such price was increased because the contractor-furnished cost or pricing data was inaccurate, incomplete, or not current as of the date agreed upon between the parties.

(c) The requirements of this section need not be applied to contracts when:

(1) The contract price is based on adequate price competition;

(2) The contract price is based on established catalogue prices or market prices;

(3) Contract prices are set by law or regulation; or

(4) It is determined in writing in accordance with regulations promulgated by the procurement commission that the requirements of this section may be waived, and the reasons for such waiver are stated in writing.

(b) The state may, at reasonable times and places, audit the books and records of any person who has submitted cost or pricing data to the extent that such books and records relate to such cost or pricing data. Any person who receives a contract, change order, or contract modification for which cost or pricing data are required, shall maintain such books and records that relate to such cost or pricing data for three (3) years from the date of final payment under the contract, unless a shorter period is otherwise authorized in writing.

(c) The state shall be entitled to audit the books and records of a contractor or any subcontractor under any contract or subcontract other than a firm fixed-price contract, to the extent that such books and records relate to the performance of such contract or subcontract. Such books and records shall be maintained by the contractor for a period of three (3) years from the date of final payment under the prime contract and by the subcontractor for a period of three (3) years from the date of final payment under the subcontract, unless a shorter period is otherwise authorized in writing. All

(a) The chief procurement officer, pursuant to policies or rules and regulations of the procurement commission, may authorize the procurement of goods and services through a solicitation process in which a limitation of liability is authorized by the chief procurement officer and set forth in the documents initiating the solicitation process. Such procurement may be undertaken only in accordance with rules and regulations describing the circumstances in which such procurement shall be permitted and what types of limitations of liability shall be allowed.

(b)

The chief procurement officer shall not authorize limitation of the liability of a contractor to an amount less than two (2) times the value of the contract unless the chief procurement officer determines, and the comptroller of the treasury approves, that:

(B) The limitations and any alternative contract language are commercially reasonable in light of the risks to the state created by the type of goods or services purchased and the purposes for which they will be used; and

(C) The state shall not agree to limit the liability of any contractor for intentional torts, criminal acts, or fraudulent conduct.

(2) The rules and regulations shall also allow the chief procurement officer to authorize negotiation of a limitation on a contractor's liability with comptroller of the treasury approval in circumstances when the applicable procurement process has failed to provide a qualified respondent.

(c) Notwithstanding the foregoing or any other law to the contrary, the chief procurement officer and the comptroller of the treasury shall permit a limitation of liability to an amount not less than two (2) times the maximum liability under the contract. The limitation of liability shall not apply to intentional torts, criminal acts, fraudulent conduct or acts or omissions that result in personal injuries or death. (d) The purpose of this section is to limit the monetary damages recoverable by the state in a claim or legal action against its contractor. This section shall not be construed to authorize any further limitation on the legal rights of the state, and shall not constitute a waiver of sovereign immunity of the state, and shall not authorize a cause of action against the state in any jurisdiction.

(B) Any municipality, county, utility district, or other local governmental unit of the state which purchases goods and equipment under this subsection (c) shall directly handle payment, refunds, returns, and any other communications or requirements involved in the purchase of the goods and equipment without involving the entity which originated the contract. When any general law, charter or private act requires that a county purchase by competitive bidding, either formal or informal, the procuring government unit may consider the price under any contract or price agreement obtained under a purchasing program authorized pursuant to this section in the same manner as a formal bid or informal quotation obtained under such general law, charter or private act.

12-3-1206.

(a) Any municipality, county, utility district, or other local government of the state may participate in, sponsor, conduct or administer a cooperative purchasing agreement for the procurement of any supplies, services or construction with one (1) or more other local governments in accordance with an agreement entered into between the participants. Such cooperative purchasing may include, but is not limited to, joint or multi-party contracts between local governments. Where the participants in a joint or multi-party contract are required to advertise and receive bids, it shall be sufficient for those purposes that the purchasing entity comply only with its own purchasing requirements.

(b)

(1) Any municipality or municipal agency may participate in, sponsor, conduct, or administer a cooperative purchasing agreement for the procurement of any supplies or any services other than construction, engineering or architectural services or construction materials with one (1) or more other local governments outside this state, to the extent the laws of the other state permit the joint exercise of purchasing authority, in accordance with an agreement entered into between or among the participants. A municipality may participate in a master agreement by adopting a resolution accepting the terms of the master agreement. If a participant in a joint or multi-party agreement is required to advertise and receive bids, then it will be deemed sufficient for those purposes that the purchasing entity or the entity that procured the bid complied with its own purchasing requirements. When any general law, charter or private act requires that a municipality or municipal agency purchase an item or a service by competitive bidding, either formal or informal, the municipality or municipal agency may consider the price for the same item or service under any contract or agreement pursuant to this section in the same manner as one of the formal bids or informal quotations required under such general law, charter or private act.

(2) The powers conferred by this subsection (b) are in addition and supplemental to the powers conferred by any other law and without regard to the provisions, requirements or restrictions of any other law, and the limitations imposed by this subdivision (b)(2) shall not affect powers conferred by any other law.

12-3-1207.

(a) Notwithstanding any other provision of law, a county, municipality and metropolitan government may transfer the ownership of assets for fire protection purchased through or with the proceeds of federal, state or local grants to volunteer fire departments within such county, municipality or metropolitan area; provided, that such volunteer fire departments are registered as non-profit organizations with the office of the secretary of state.

(b) This section shall have no effect in a county, municipality or metropolitan area unless it is approved by the appropriate legislative body.

12-3-1208.

(a) Any municipality may use competitive sealed proposals to purchase goods and services rather than competitive sealed bids when the municipal governing body, acting under the restrictions and requirements of this section and a procurement code adopted by the governing body, determines that the use of competitive sealed bidding is either not practicable or not advantageous to the municipality. In actual emergencies caused by unforeseen circumstances, such as natural or human-made disasters, delays by contractors, delays in transportation, or unanticipated volume of work, purchases through competitive sealed proposals may be made without specific authorizing action of the municipal governing body. A record of any emergency purchase shall be made by the person or body authorizing the emergency purchase, specifying the amount paid, the items and services purchased, from whom the purchase was made, and the nature of the emergency. A report of the emergency purchase through competitive sealed proposals containing all relevant information shall be made as soon as possible by the person or body authorizing the purchase to the municipal governing body.

(b) In the decision to use competitive sealed proposals, the governing body shall follow a procurement code, which shall be adopted by the municipality by ordinance before purchases may be made under this section. The code shall contain criteria for purchasing through competitive sealed proposals and procedures consistent with this section.

(c) The procurement code shall provide that competitive sealed proposals may be used only when qualifications, experience, or competence are more important than price in making the purchase and:

(1) When there is more than one (1) solution to a purchasing issue and the competitive sealed proposals will assist in choosing the best solution; or

(2) When there is no readily identifiable solution to a purchasing issue and the competitive sealed proposals will assist in identifying one (1) or more solutions.

(d) The municipal technical advisory service of the University of Tennessee's institute for public service, in conjunction with the comptroller of the treasury's office, shall develop a model procurement code that may be adopted by any municipality to guide the governing body and purchasing agent in making purchases through requests for competitive sealed proposals. The model procurement code shall contain provisions allowing an aggrieved respondent to protest the intended award to another respondent if the protest is filed within seven (7) calendar days after the intended award is announced. The protest shall be filed with and decided by the municipal governing body.

(e) Adequate public notice of the request for competitive sealed proposals shall be given in the same manner provided for competitive sealed bids.

(f) Competitive sealed proposals shall be opened in a manner that avoids disclosure of contents to competing respondents during the negotiation. The proposals shall be open for public inspection after the intent to award the contract to a particular respondent is announced.

(g) The request for competitive sealed proposals shall state the relative importance of price and other evaluation factors.

(h) As provided in the request for competitive sealed proposals and in the procurement code, discussions may be conducted for clarification to assure full understanding of, and responsiveness to, the solicitation requirements with responsible respondents who submit proposals determined by the purchasing agent to be reasonably susceptible of being selected. These respondents shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and revisions may be permitted after submission and before the intent to award to a particular respondent is announced to obtain the best and final offers. In conducting discussions, the purchasing agent and other municipal personnel may make no disclosure to any respondent of any information derived from proposals submitted by competing respondents.

(i) The award shall be made to the responsible respondent whose proposal the governing body determines is the most advantageous to the municipality, taking into consideration price and the evaluation factors set out in the request for competitive sealed proposals. No other factor may be used in the evaluation. The purchasing agent shall place in the contract file a statement containing the basis on which the award was made.

(j)

If the county in question has no newspaper with countywide circulation, the purchasing agent shall post notices on a public bulletin board in the county courthouse. The purchasing agent may also solicit bid requests by mail to prospective bidders or by distributing invitations to bid electronically via email or by posting on the entity's web site. All invitations to bid shall include a general description of the goods or services to be purchased and information related to the time and place of opening bids.

(c) In order to assure the fullest possible participation of small businesses and minority owned businesses, a local governmental unit shall provide a mechanism either through the local governmental unit itself or through a third party, if a third party source is utilized to conduct the reverse auction, to facilitate participation of small and minority owned businesses in a reverse auction.

(d) All bid responses received shall be made available publicly at the time and place identified in the invitation to bid. An award shall be made to the offeror determined to be the lowest responsible and responsive bidder at the close of the specified bid period. Each bid, with the name and address of the bidder, shall be recorded and the names of the bidders, the amounts of their bids and the name of the successful bidder shall, after the award, be open to public inspection. 12-4-101.

(a)

(1) It is unlawful for any officer, committee member, director, or other person whose duty it is to vote for, let out, overlook, or in any manner to superintend any work or any contract in which any municipal corporation, county, state, development district, utility district, human resource agency, or other political subdivision created by statute shall or may be interested, to be directly interested in any such contract. "Directly interested" means any contract with the official personally or with any business in which the official is the sole proprietor, a partner, or the person having the controlling interest. "Controlling interest" includes the individual with the ownership or control of the largest number of outstanding shares owned by any single individual or corporation. This subdivision (a)(1) shall not be construed to prohibit any officer, committee person, director, or any person, other than a member of a local governing body of a county or municipality, from voting on the budget, appropriation resolution, or tax rate resolution, or amendments thereto, unless the vote is on a specific amendment to the budget or a specific appropriation or resolution in which such person is directly interested.

(2)

(A) Subdivision (a)(1) shall also apply to a member of the board of directors of any not-for-profit corporation authorized by the laws of Tennessee to act for the benefit or on behalf of any one (1) or more counties, cities, towns and local governments pursuant to title 7, chapter 54 or 58.

"Indirectly interested" means any contract in which the officer is interested but not directly so, but includes contracts where the officer is directly interested but is the sole supplier of goods or services in a municipality or county.

(c)

(1) Any member of a local governing body of a county or a municipality who is also an employee of such county or municipality and whose employment predates the member's initial election or appointment to the governing body of the county or municipality may vote on matters in which the member has a conflict of interest if the member informs the governing body immediately prior to the vote as follows: "Because I am an employee of (name of governmental unit), I have a conflict of interest in the proposal about to be voted. However, I declare that my argument and my vote answer only to my conscience and to my obligation to my constituents and the citizens this body represents." The vote of any such member having a conflict of interest who does not so inform the governing body of such conflict shall be void if challenged in a timely manner. As used in this subdivision (c)(1), "timely manner" means during the same meeting

at which the vote was cast and prior to the transaction of any further business by the body.

(1) Submit a response to a solicitation for that procurement or any portion thereof; or

(2) Disclose to any respondent to a solicitation information concerning the procurement that is not available to the public. A public body may permit such person to submit response to a solicitation for that procurement or any portion thereof if the public body determines that the exclusion of the person would limit the number of potential qualified respondents to a solicitation in a manner contrary to the best interest of the public body.

(c)

(1) It is an offense for a contractor or subcontractor to demand or receive from any of the contractor or subcontractor's suppliers or for a contractor to

demand or receive from the contractor's subcontractors, as an inducement for the award of a subcontract or order, any payment, loan, subscription, advance, deposit of money, services or anything, present or promised, unless consideration of substantially equal or greater value is exchanged.

(4) If a contractor, subcontractor, supplier or any person violates any provision of this subsection (c), the amount thereof shall be conclusively presumed to have been included in the price of the contract, subcontract or order and ultimately borne by the public body and shall be recoverable from both the maker and recipient. Recovery from one (1) offending party shall not preclude recovery from other offending parties.

(d)

(1) A contract entered into in violation of this section on or after October 1, 2011, is void. A contract that is otherwise void under this section may continue in effect until an alternative can be arranged when:

(A) Immediate termination would result in harm to the public health or welfare; and

(B) The continuation is approved by the commission.

(2) Approval of continuation of contracts under this subsection (d) shall be given for the minimum period necessary to protect the public health or welfare. The chief procurement officer and the comptroller of the treasury shall be notified immediately upon a determination that a contract violates this section.

(d).

(2) A public officer or employee is involved in administering a contract if the officer or employee oversees the performance of the contract or has authority to make decisions regarding the contract or to interpret the contract.

(3) A public officer or employee is involved in making a contract if such officer or employee participates in the development of specifications or terms or in the preparation or award of the contract. A public officer is also involved in making a contract if the board, commission, or other body of which such officer is a member takes action on the contract, whether or not the public officer actually participates in that action, unless the contract is approved under an exception to this section under which the public officer is allowed to benefit and is prohibited from voting.

(4) A public officer or employee derives a direct benefit from a contract if the person or the person's spouse:

(A) Has more than a ten-percent (10%) ownership or other interest in an entity that is a party to the contract;

or

(C) Acquires property under the contract.

12-4-107.

(a) All contracts for architectural, engineering and construction services procured by any municipal corporation, county, state, development district, utility district, human resource agency, or other political subdivision created by statute shall meet the following requirements:

(1) In the procurement of architectural and engineering services, the selection committee or procurement official may seek qualifications and experience data from any firm or firms licensed in this state and interview such firm or firms. The selection committee or procurement official shall evaluate statements of qualifications and experience data regarding the procurement of architectural and engineering services, and shall conduct discussions with such firm or firms regarding the furnishing of required services and then shall select the firm deemed to be qualified to provide the services required.

(2) The selection committee or procurement official shall negotiate a contract with the qualified firm for architectural and engineering services at compensation which the selection committee or procurement official determines to be fair and reasonable to the government. In making such determination, the selection committee or procurement official shall take into account the estimated value of the services to be rendered, the scope of work, complexity and professional nature thereof.

(3) Should the selection committee or procurement official be unable to negotiate a satisfactory contract with the firm considered to be qualified, at a price determined to be fair and reasonable, negotiations will continue with other qualified firms until an agreement is reached.

(4) A city, county or utility district having a satisfactory existing working relationship for architectural or engineering services may expand the scope of the services; provided, that they are within the technical competency of the existing firm, without exercising this section.

These factors shall include the construction manager's qualifications and experience on similar projects, qualifications of personnel to be assigned to the project, fees and costs or any additional factors deemed relevant by the procuring entity for procurement of the service. Cost shall not be the sole criterion for evaluation. The contract for such services shall be awarded to the best qualified and responsive responder. A construction manager is prohibited from undertaking actual construction work on a project over which the construction manager coordinates or oversees the planning, bid or construction phases of the project, except in instances when bids have been solicited twice and no bids have been submitted. If the construction manager can document that a good faith effort was made in each bid solicitation to obtain bids and no bids were received, then the construction manager may perform the construction work at a price agreed upon by the construction manager, the architect and the owner of the project. A governing body, at its own discretion, may perform work on the project with its own employees and may include the coordination and oversight of this work as part of the services of the construction manager. Sealed bids for actual construction work shall be opened at the bid

The state architect shall place the appropriate designation on a document which is determined to be a state standard prototype.

(b) Prior to the re-use of documents for a project in which the original architect or engineer is not also involved, the state shall remove and obliterate from all documents the identification of the original architect or engineer, including name, address, professional seal or stamp, and signature. The architect or engineer who is involved in a state standard prototypical re-use project shall affix such architect or engineer's seal or stamp to such design, and shall be solely responsible for all documents on which such architect or engineer's seal or stamp is placed, and shall hold the original architect or engineer harmless from suits by third parties.

(c) The original architect or engineer shall not be liable for injury or damage resulting from re-use of plans, designs, details, specifications or construction documents of a state standard prototype by the state or third parties, if the original architect or engineer is not also involved in the re-use project. Such categories shall include such factors as qualifications, experience on similar projects, availability of workers, technical approach, minority participation, cost, and any additional factor or factors deemed relevant by the procuring governmental entity. Cost shall not be the sole criterion for evaluation. Proposers shall be given at least thirty (30) days from public advertisement of the request for proposals to consider the evaluation factors set forth in the solicitation documents before submitting proposals. The contract shall be awarded to the best proposer who meets the minimum required qualifications, using the evaluation criteria set forth in this subsection (b).
